Shawn Dreifuss

Full Stack Software Developer

A passionate and dedicated Full Stack Software Developer with a proven track record in designing, developing, and maintaining web applications. I bring a strong proficiency in modern web technologies including HTML5, CSS, JavaScript, and popular frameworks such as React.js, Next.js, and Angular. My experience extends to database design and management with tools like MySQL, Firebase, and MongoDB. As a graduate of the UCLA Full Stack Coding Bootcamp, I am equipped with a solid foundation in software development principles and methodologies. I am eager to leverage my skills and knowledge to contribute to innovative software solutions and make a meaningful impact in my role as a software developer.
